

ENRICHED AIR (NITROX) from Marseille Provence Diving

Experience the benefits of breathing Oxygen Enriched Air (NITROX) whilst scuba diving. Get certified to Scuba Dive with NITROX Enriched Air with Au Dela Plongee PADI Dive Resort.

Welcome to one of PADI's most popular specialties – the PADI Enriched Air (NITROX) Diver course. Diving with Enriched Air (NITROX) lets you safely extend your no stop time beyond the no decompression limits for air. Diving with enriched air means more time underwater – but you need to be certified as an Enriched Air Diver to get enriched air fills.

Whether you're into underwater photography or wreck diving, on vacation in a tropical paradise or just out for a leisurely day of diving at your local dive site, the PADI Enriched Air (NITROX) Diver course helps you get more out of diving by giving you more time underwater.

Experience the benefits of breathing Oxygen Enriched Air (NITROX) whilst scuba diving. Get certified to Dive with NITROX Enriched Air anywhere in the World. Safely extend your no-decompression limits to depths of up to 30 metres.
