

### **CAVERN DIVER from Marseille Provence Diving**

If you want to explore secrets hidden in caverns around the world you'll want your PADI Cavern Diver Specialty Certification.

If you dive within the light zone of a cave, the area near the cave entrance where natural light is always visible, you're cavern diving.

Cavern diving is defined as any dive conducted within the light zone of a cave.

These signs and symptoms may indicate that the patient is experiencing a severe allergic reaction, such as anaphylaxis, which is a life-threatening condition. The patient should be monitored closely for any further signs of distress, and appropriate medical interventions should be initiated as needed.
