

Snorkeling Tour

Float in the Unique Underwater World of mediteranen sea

Snorkelling in the calanques of Marseille is the best way to discover marine life and wildlife of our national park of marseilles calanques

You don't need to be a certified diver in order to experience water at its clearest! Snorkeling is for everyone who feels comfortable in water and is a fantastic adventure for the whole family.

We offer daily snorkeling trips to lot of wonderfull places to discover the calanques and islands of Marseille where you will float between the sea life, surrounded by the astonishing clarity of the water and the mesmerizing colors of this underwater world.

The snorkeling tour begins when you reach us at the dive center.

Upon arrival in the calanque of la vesse, we will give you your snorkeling equipment. Your guide will explain how to use this equipment and how to ensure that you will be comfortable during your 30 to 40 minute snorkeling tour on our several snorkeling spots.

Make sure to drink water while you are snorkeling!

This tour is conducted alongside the Au dela plongee snorkeling Tour. If you would like to snorkel while your friends or family dive, you can still enjoy the day together!
